## PHOTOCOPIES

There are photocopiers in all UAB libraries. All photocopiers work with coins and/or prepayment cards that can be acquired at OCE Company desks and at the libraries. ## WI-FI

This service makes accessing the Internet network with an ordinary laptop possible without the need of cables. You can do so at buildings that have Wi-Fi coverage. To know which buildings have coverage, consult the library information desks. You will need a web identification number to access the Wi-Fi network.

### Steps to gain access:

- Write the name of any UAB page in your browser (for example [www.uab.cat](http://www.uab.cat) ). You will then receive an access page on which you will have to choose the type of access (guest or personalized).
- If you choose personalized access, you will be taken to a new page for validation where you will have to type in your NIU and password. If you are an Eduroam user, your identification will be the same as the one you use to connect to the network of your own organization. Where it says NIU enter your user identification followed by the @ symbol and the dominion of the organization you are from (for example @udg.edu if you are from the University of Girona).

## COMPUTER SERVICES

Computers can be found at each faculty and, depending on the timetable, are for free use or for teaching purposes. Check any time. You have to introduce your NIU and password to use the computers.

Students can print their academic documents and personal work by using these rooms and the printers.

# LANGUAGE COURSES

**The Language Service** (UAB Idiomes) offers Catalan language courses for newly arrived students. These courses enable students to understand written and spoken Catalan and to begin to speak and write it. They are subsidised by UAB until completing the basic level and may be recognised as credits. Timetables and levels can be consulted on the Language Service website.

To complement these courses the Language Service offers a Centre for Independent Language Learning and a series of linguistic and cultural activities (Ajuda'm programme): conversation groups, a resource centre for independent learning, the opportunity to receive support, practice the language and find out about the culture and traditions with a fellow UAB student.

Apart from Catalan and Spanish you can also take English, French, German, Italian and Japanese. Before enrolling all students must take a level test. Language Service-UAB Idiomes courses may be recognised as credits.

# MEDICAL INSURANCE AND SOCIAL SECURITY

Any foreign student coming to study at the UAB must have medical insurance cover.

If you are a citizen of the European Union or a citizen of Iceland, Liechtenstein, Norway or Switzerland, and you are entitled to social security in your country, you should apply for the European Health Insurance Card (EHIC). The card makes visiting a state-run hospital, doctor's surgery or dental practice in European countries easier and means you will be treated in the same way as someone who lives in that country. You can obtain a card free of charge by contacting your local health insurance institution as each individual country is responsible for producing and distributing the card in its own territory. Take into account that the card does not cover private health care or repatriation costs. Visit the EHIC website to find out more: <http://ehic.europa.eu>

If you are from outside the European Union you should check whether there is an agreement for healthcare between the social security of your country and of Spain. If there is such an agreement, you should submit the necessary documents in your country so that you can have free access to Spanish public healthcare. If your country has no healthcare agreement with the Spanish Social Security system, you should take out private insurance cover for the whole of your stay in Spain.

UAB has designed together with ACE Europe and ÓMNIBUS Grupo Concentra an insurance for international students, researchers and professors of the university. There is also an insurance exclusively for repatriation available.

All the students under 28 registered at the UAB have right to be covered under the UAB Educational Insurance scheme.
